

Wheat Domestic Fundamentals:

- Indian wheat can fill the gap of demand and supply in international market and can help global prices to stabilize. In July government has approved 2 million tonnes of wheat export out of which around 1.83 million tonnes was exported and few days ago government has now allowed 2.5 million tonnes of wheat export. PSU's has got bids at par and over CBOT future price and this trend is expected in days ahead.
- In a latest development, the Government has rejected a top food grain pricing panel's (CACP) recommendation of keeping wheat MSP unchanged at previous year's level. The Government has asked the Commission for Agricultural Costs and Prices (CACP) to rework the minimum support price (MSP) of wheat for 2012-13 keeping in mind the rise of cost of inputs such as fertilizer and diesel.
- In Maharashtra wheat has been sown in 190,979 hectares, which is 19.7% of normal Area, at the same time last year wheat was sown in 250,888 hectares. Maharashtra has set sown area target at 10.5 lakh hectares against the normal area 9.67 lakh hectares.
- In Rajasthan wheat has been sown in 153,270 hectares so far, which is 54.7% of the target area. Last year at the same time wheat was sown in 16, 02,700 hectares. Rajasthan has set target of 28, 00,000 hectares against the last years 29, 35,000 hectares.
- According to PIB (Press Information Bureau), in India so far wheat has been sown in 157.89 lakh hectares as compared to 162.50 lakh hectares same time last year.

International Market Update:

- According to the latest IGC report, Wheat production estimate for the year 2012-13 has been slashed from 655 million tons to 654 million tones as lower harvesting is expected in Australia and EU.
- Wheat trade has been raised from 132 million tons to 134 million tones as fresh demand had been noticed from China and Iran.
- Carry out stock too has been increased from 172 million tons to 173 million tones but stock shows 23 million tones fall year on year basis.
- Global consumption has been lowered to 678 million tons from 679 million tones as higher prices and lower supplies have contained demand for feed and industrial demand.
- According to Ministry of Agriculture of Ukraine, Ukraine might not Ban Milling Wheat despite of reaching 5.5 million tonnes critical mark.

Domestic market Outlook: We expect wheat future market to trade steady to weak due to increased supply under OMSS-D bulk users will restrict uptrend.
