

**Wheat Domestic Fundamentals:**

- In Gujarat, Gandhidham exporters are buying wheat at FOR Rs 1710/Q. Cargill and ITC are active in wheat spot market. According to traders every day around 700-800 bags are being diverted from ration quota to spot market at Rs 1550-1600/Q.
- In Rajasthan wheat has been sown in 20, 63, 700 hectares so far, which is 73.3% of the target area. Last year at the same time wheat was sown in 19, 29,800 hectares. Rajasthan has set target of 28, 00,000 hectares against the last years 29, 35,000 hectares.
- According to PIB (Press Information Bureau), wheat has been so far sown in 183.55 lakh hectares as compared to last year's 181.67 lakh hectares at the same time.
- Wheat sowing has improved as compared to last year at the same time. It is ahead almost by 2 lakh hectares till date. We expect that wheat area will remain same or more as compared to last year however lower area coverage was reported in Rajasthan and Gujarat.
- Feed millers have shifted to maize due to lower price and better availability in the major producing price, however maize price started firming up and it may support wheat price once again in near term.

**International Market Update:**

- Argentina is expected to peg its export at 4.5 million tonnes this year as compared to 6 million tonnes last year. Argentina is expected to produce 11.1 million tonnes against the 15 million tonnes last year. Crop is low due to excessive rains in major wheat growing areas. As per the latest reports 26% of wheat has been harvested but yield has been low.
- Indonesia the largest wheat importer in South East Asia has become the first nation to purchase more than 4 million tonnes of wheat in a year. According to analyst Australia has 70% market share in Indonesia.

**Domestic market Outlook:** We expect wheat Cash and future market to trade steady to weak due to increased supply under OMSS-D bulk users will restrict uptrend.
