

Domestic Market

- Cotton prices were almost steady on the back of lower export demand. According to market sources, the overall trend is negative and cotton prices may decline this week ended on 27 April 2013.
- According to the Indian Cotton Confederation, production of cotton in 2012 -13 is estimated to be around 326 lakh bales. According to industry sources, imports of cotton in the current season are likely to be higher compared to the previous season's import of 12 lakh bales.
- Export registration for cotton is likely to exceed the set limit of 80 lakh bales amid good Chinese demand according to the Cotton Advisory Board.
- CCI has decided to release 2.5 lakh bales to textile industry.

Weekly Outlook: Lower arrivals in market are making prices decline. Low arrivals are not enough to support prices. Prices are likely to decline in coming week.

International Market

- According to China Cotton Association, it will start procuring cotton at same price compared to previous year in order to stabilize domestic production.
- Building of stocks by China will weigh on prices in the medium –term.
- According to Pakistan Ginner's Association, production of cotton in the first nine months ending on March 31, 2013 is estimated at 12.88 million bales compared to 14.67 million bales during the same period previous year.
- Cotton futures at NYMEX noticed firm tone amid fresh buying by millers.
- According to China Cotton Association, it will start procuring cotton at same price compared to previous year in order to stabilize domestic production.
