

**Domestic Fundamentals:**

- Mixed sentiments recorded in major markets of guar seed and guar gum with comparison to previous day.
- Total export of guar gum in the month of April, 2013 is 51182.67 MT as per latest figure given by DGCIS.
- However, Traders of Bhiwani District in Haryana see prices would move down further of guar seed in near future as domestic demand is weak. Apart from the own production, Farmers bought more guar from the mandi in anticipation of higher guar prices.
- Southwest Monsoon likely to hit Haryana and parts of Rajasthan in the coming week as reported. It is notable that farmers have started guar sowing in their respective fields and if rain occurs next week then it would increase the guar sowing in rest of regions.
- Market sources are now predicted the guar prices would test Rs 5000 level in the coming time.
- Guar from Haryana is the next guar crop which would hit the market after 3 months which is just after the end of guar arrivals from Gujarat.

**Outlook:**

Guar seed as well as gum prices continuously decline in key cash markets owing to weak demand and increasing arrivals. In addition to it, higher guar sowing intentions also led the prices down.

**NCDEX Guar Seed Future Quotes:**
