Domestic Fundamentals:

- Prices of guar seed as well as guar gum improved today owing to lower arrivals. Overall sentiments remained weak for guar due to higher sowing compared to last year and favorable weather conditions for standing guar crop.
- With increase in guar seed prices, farmers are trying to release their holdings in the markets proved by increasing guar seed arrivals on a regular basis.
- Recent weakness in Rupee opens an opportunity for the foreign buyers to buy the guar gum at cheap rates.
- Around 45000 tons of guar gum (Splits and powder) exported to various countries in July month 2013 as reported.
- Adequate rainfall in western parts of Rajasthan like Khajuwala Barmer etc urge farmers to sown their fields with guar crop as reported.
- Still there are no stock holdings of guar by traders in any markets at present due to non clarity of price direction in the minds of the traders. Only millers are purchasing guar stocks from the markets to make guar gum.
- Exporters are now active and likely to increase the purchase of guar gum due to good parity thanks to weak rupee.
- Guar sowing in Churu district declined compared to last year as sharp decline in guar seed prices in spot markets discourage the farmers to sown guar crop in their respective fields.
- It is notable that farmers are now pretty much disappointed with the recent crash in guar seed prices and they don't want to release their holding in the market at such a lower rates as reported.

Outlook:

Guar seed and gum prices likely to improve for short term owing to some profit booking. However, overall sentiments remained weak due to huge stock left with farmers.
