

Oilseeds Domestic Fundamentals:

Soybean (plant delivery, Indore) prices extended gains on firm BMD CPO and lower than the average daily arrivals in recent days, Monday. Soybean arrivals in Madhya Pradesh were reported slightly higher at 1 lakh bags compared to 0.80 lakh bags on Saturday. RM seed prices extended gain in benchmark, Jaipur tracing gains in BMD CPO. However, the prices were under pressure in other key cash markets of Rajasthan and Uttar Pradesh.

International Oilseeds Fundamental:

Consumers and importers have reacted nervously to the delays in Brazilian soybean harvesting and exports in recent weeks as well as to the severe dryness and crop stress in Argentina. The delays were mainly caused by sluggish harvesting due to rains and congestion in the Brazilian ports. Oil World has reported that the the conflict between Argentine farmers and the government is escalating. The government has exerted more pressure on farmers to sell their old-crop soybeans.

Outlook:

Soybean plant delivery prices are likely to feature range bound movement with weak bias on expected pressure on CBOT soybean with new crop arrivals in South America. The Indore (Plant Delivery) prices are expected to witness 3260-3290 levels.
