AGRIWATCH

Oilseeds Domestic Fundamentals:

Soybean (plant delivery, Indore) prices extended losses on bearish sentiments in overseas oil & oilseed markets, Wednesday. Soybean prices on CBOT were pressured by the rapid harvest of a record crop in Brazil and rumors that China might have released domestic soybeans out of reserves for domestic crushers while it awaits Brazilian shipments to begin. Prices of RM seed were down on ample domestic supplies across major spot markets. Supply is expected to reach its peak by mid-March. Soybean arrivals in Madhya Pradesh were reported lower at 1.0 lakh bags compared with 1.25 lakh bags on Tuesday. The strike of workers continues in the Indore market and no arrivals were reported.

International Oilseeds Fundamental:

Reportedly, port strike in Brazil in protest of privatization plans has been suspended until mid-March after an agreement by dock workers was reached with government officials. Oil World has projected that European Union usage of soybean meal may climb to 24.2 million tons in the period from January through to September from 22.9 million tons in the yearearlier period. Consumption of sunflower meal will drop to 4.66 million tons in the January-September period from 5.54 million tons. Celeres has stated that as of Feb 22, 28% of Brazil's planted soybean area was harvested, up from 19% a week earlier.

Outlook:

Soybean plant delivery prices are likely to feature range bound movement on steady demand in the beans. The Indore (Plant Delivery) prices are expected to witness 3370-3400 levels.
