AGRIWATCH

Oilseeds Domestic Fundamentals:

Soybean (plant delivery, Indore) prices witnessed firm trend, Monday on limited domestic supplies amid strong spot demand and gains in BMD CPO on reports of ease in palm oil stock position in the month of February and higher exports in March so far. Soybean arrivals in Madhya Pradesh were reported down at 25,000 bags on Monday as most mandis were reported closed today due to Amavasya. RM seed prices were quoted higher in the key spot markets on low arrivals. All India RM arrivals were reported down at 2.25 lakh bags.

International Oilseeds Fundamentals:

According to Safras & Mercado, the soybean harvest in Brazil has hit 48 per cent of the estimated area in the week ended March 8 compared with 37 per cent in the previous week. The historic average for the period is 32 per cent. Also, the Brazilian soybean growers have sold 58 per cent of the 2012-13 crop up to March 8, compared with previous figure of 52 per cent. In the USDA monthly demand and supply report, the global oilseed production for 2012/13 is projected at 466.8 million tons, down slightly from last month as reduced soybean and sunflower seed production is mostly offset by increased rapeseed and cottonseed production.

Outlook:

Soybean plant delivery prices are likely to feature range bound movement on steady demand in the beans. The Indore (Plant Delivery) prices are expected to witness 3550-3620 levels.
