

#### Oilseeds Domestic Fundamentals:

Soybean (plant delivery, Indore) prices fell despite gains in overseas markets on sluggish buying amid higher domestic market arrivals, Thursday. Soybeans on CBOT rebounded on speculative buying interest after being pressured during the week while BMD CPO was up on expectations that inventories may decline on higher exports and reduced output. Soybean arrivals in Madhya Pradesh were reported higher at 100,000 bags compared with 80,000 bags on Wednesday. RM seed prices were up on better buying although arrival pressure restricted gains. RM seed arrivals in cash markets of Rajasthan were reported at about 2.85 lakh bags.

### International Oilseeds Fundamentals:

Lanworth has estimated that U.S. farmers will plant a record 81.3 million acres of soybeans in 2013-14 season which will result in a harvest of 3.455 billion bushels. Lanworth increased its forecast for Brazil soybean production to 81.1 million tons from 80.8 million and Argentine soybean production view to 50.5 million tons from 49.4 million. As per General Administration of Customs of China for Feb '13, soybean imports were recorded at 2,898,592 tons; rapeseed imports at 199,356 tons and soy meal import were 2,615 tons. Traders have reported that China is selling between 1-1.5 million tons of state soy reserves to some crushers to ease tight supply after port congestion in Brazil interrupted shipments.

#### **Outlook:**

Soybean plant delivery prices are likely to feature range bound movement on steady demand in the beans. The Indore (Plant Delivery) prices are expected to witness 3550-3600 levels.
