

## Oilseeds Domestic Fundamentals:

Soybean (plant delivery, Indore) prices eased today on limited trading activities as many spot markets of Madhya Pradesh were reported closed due to Amavasya, Wednesday. Further, soybean arrivals in Madhya Pradesh were reported down at 15,000 bags because of this reason. Soybeans on CBOT traded in the positive territory as traders positioned themselves ahead of USDA's monthly supply and demand report which is due on Wednesday. Rapeseed/mustard seed prices featured mild losses across most spot markets of Rajasthan.

## International Oilseeds Fundamentals:

As per customs data, Chinese imports of soybeans in March 2013 were reported at 3.84 million tons, up 32.4 per cent from February but down 20.5 per cent from a year ago. The decline is mainly because of the slow shipments pace from Brazil. However, imports are likely to rebound in the days ahead. Brazilian government agency, CONAB, has reduced its forecast for the 2012-13 soybean crop by 0.24 per cent to 81.9 million tons. It has further reported that the plantation area for 2012-13 soybeans increased by 10.7 per cent compared with last season, but yield was estimated to be 2.957 tons per hectare, down from 2.968 tons per hectare previously.

## Outlook:

Soybean plant delivery prices are likely to feature range bound movement. The Indore (Plant Delivery) prices are expected to witness 4025-4100 levels.
