

Oilseeds Domestic Fundamentals:

Soybean (plant delivery, Indore) prices remained steady in the absence of any fresh demand Saturday. Gyration of weak outside market, including precious metals and crude oil restricted any upside. At NCDEX both soybean and RM seed fell on profit booking. Soybean arrivals in Madhya Pradesh were reported higher at 50,000 bags compared to 40,000 bags on Friday. However, the rapeseed/mustard seed prices surged on buying support and overnight gains in CBOT soy complex.

International Oilseeds Fundamentals:

As per the latest weekly export sales report released by USDA (Mar 29 – Apr 04), net weekly sales were reported at 319,200 tons for the current marketing year and 64,500 tons for the next marketing year for a total of 383,700 tons. Port workers in Brazil are looking to cal a 24 hour nationwide strike on April 18 likely affecting the exports of soybean at a time when port congestion and rain are already delaying shipments. The government is working to reach an agreement with the workers' union to ward off the strike. Buenos Aires Grains Exchange has reported that 24 per cent of Argentina's soy crop has been harvested.

Outlook:

Soybean plant delivery prices are likely to feature range bound movement with firm bias due to good demand and lower supplies. The Indore (Plant Delivery) prices are expected to witness 4050-4150 levels.
