

Oilseeds Domestic Fundamentals:

Soybean (plant delivery, Indore) prices witnessed mild gains Thursday as crop supplies in the spot markets are currently less than expectations and firm sentiments in CBOT soybeans. Recent rainfall in harvesting regions of central India has raised concerns about the quality of new crop. RM seed prices also surged Thursday on improved buying on expectations of seasonal demand in the upcoming festive season. Soybean arrivals in Madhya Pradesh were reported lower at 105,000 bags new crop arrivals, Thursday. Arrivals are still lower than expected as rainfall over parts of central India is affecting the harvesting activities resulting in delays in new crop supplies in the markets. RM seed arrivals improved with 55,000 bags in Rajasthan and 90,000 bags all India.

International Oilseeds Fundamentals:

As per USDA, soybean harvesting in the US was reported as 3 percent complete. This was behind the five-year average of 9 per cent. As per Chinese government authorities, China has allowed the crushers to import rapeseed from Russia to meet increasing demand. China's rapeseed imports in June-May 2013-14 are likely to reach 3.59 million tons, up 54 per cent from 2012-13.

Outlook:

Soybean plant delivery prices are likely to feature range bound movement on higher soybean production estimates and new crop arrival pressure, although prices may be supported by domestics crop yield concerns and global factors in the near term. The Indore (Plant Delivery) prices are expected to witness 3450-3500 levels.
