AGRIWATCH

### **Oilseeds Domestic Fundamentals:**

Soybean (plant delivery, Indore) prices witnessed a decline Tuesday amid appreciation in the Indian rupee due to concerns over a fall in demand of soy meal from Iran following a deal between Iran and six world powers. Soybeans on CBOT were up on expected strong Chinese demand despite pressure from the favorable weather conditions in South America. RM seed prices fell on pressure from the ongoing rabi planting and weakness in BMD CPO. Soybean arrivals in Madhya Pradesh were reported lower at 40,000 bags Tuesday. 60,000 bags of rapeseed/mustard seed registered in Rajasthan and all India arrivals were 1.10 lakh bags.

## International Oilseeds Fundamentals:

As per AgRural, soybean sowing in Brazil advanced to 79 percent complete (as of Nov 22), slightly above the 78 percent mark a year earlier but behind the five-year average of 81 percent. Planting is 96 percent complete in top producing state Mato Grosso.

## **Outlook:**

Soybean (plant delivery) prices are likely to feature a steady to firm movement on seasonal demand and lower supplies. The Indore (Plant Delivery) prices are expected to witness 3775-3900 levels in the near term.
