

Oilseeds Domestic Fundamentals:

Soybean (plant delivery, Indore) prices featured steady tone Thursday on moderate demand in the spot markets amid lower arrivals. CBOT soybeans featured gains on strong demand; still, near term pressure is likely to be seen due to higher global production estimates. RM seed prices witnessed a decline on dull demand and weakness in BMD CPO, Thursday. Soybean arrivals in Madhya Pradesh were reported slightly up at 140,000 bags Thursday, but still supplies are weak which is supporting prices. 45,000 bags of RM seed registered in Rajasthan and all India arrivals were 81,000 bags.

International Oilseeds Fundamentals:

As per the latest WASDE report, the 2013-14 ending soybean stocks were pegged at 150 million bushels as compared with the November estimate of 170 million bushels. Exports were increased by 25 million bushels to 1.475 billion bushels and crush was up by 5 million to 1.690 billion bushels. Brazil's production estimate was kept unchanged at 88 million tons.

Outlook:

Soybean (plant delivery) prices are likely to feature a range bound movement on seasonal demand and lower supplies. The Indore (Plant Delivery) prices are expected to witness 3900-4000 levels in the near term.
