

## Onion Fundamentals:

- Wholesale Onion prices have increased by 50-100/Qtl in Delhi, Mumbai and Indore center due to lower supply as some markets were closed on account of "Maha Sankranti".
- As per market sources, rabi crop in Gujarat region could be down by 40-50% as compared to last year due to water shortage.
- As per initial estimate, rabi onion crop in Maharashtra and Karnataka could be down by 35% and 25% respectively due to less acreage and shortage of water.
- Wholesale prices and retail prices are ruling much high than last year at the same time due to lower supply from producing regions and lower production estimate of next rabi season.
- Prices are expected to firm in coming months also. Lower rabi production could affect the supply in summer season.
