

Onion Fundamentals:

- Sluggish demand was reported from upcountry market and pressurizes the prices.
- In Rajasthan, onion is coming from local region (Sikar) and Gujarat region which are contributing approximately 15% and 85% respectively to the total arrival.
- According to trade sources in Bhavnagar (Gujarat), arrivals are expected to be high for next few days and prices may remain stable.
- In Bangalore, onion is arriving in market from Maharashtra and local region which are contributing approximately 70% and 30% to total arrival.
- In Solapur (Maharashtra), arrivals have declined by approximately 30%, compared to previous two days arrivals. Reason for low arrivals is low prices in market as farmer's expectations are high.
