

Onion Fundamentals:

- Prices of onion are continuously declining from last 2-3 weeks because of increase in arrivals from producing regions.
- Across the country, arrivals have increased in all the major markets due to higher supply from Maharashtra and Gujarat region. The other reason for increase in arrivals is low shelf life of late kharif crop and farmers are releasing maximum of their stock.
- In Bhavnagar, arrivals are stable and expected to fall down in coming days. So, prices have increased by 5-10% compared to previous week prices.
- In Northern India, maximum retail prices were seen in Dehradun and Agra at Rs 25/kg followed by Agra and Varanasi at Rs 22/kg each.
