

### Onion Fundamentals:

- According to trade sources, prices of onion in Maharashtra are expected to range bound until crop from 'Mahuva' and 'Sukhsagar' variety from West Bengal gets over. Once this crop gets over, prices in Maharashtra are expected to strengthen as Rabi crop is less due to lesser rainfalls.
- In Delhi, onion is arriving in market from Maharashtra region, Gujarat (Mahuva) region and M.P region which are contributing approximately 50%, 30% and 20% respectively. Prices are continuously stable from last 4-5 days and hovering in the range of Rs 1000 to Rs 1500/ quintal.
- In Bangalore, onion is arriving in market from Maharashtra region and local region (Bijapur and Gulbarga) which are contributing approximately 75% and 25% respectively.
- In Northern India, maximum wholesale prices were in Hisar at Rs 2500 followed by Varanasi and Mandi at Rs 2000 and Rs 1700/ quintal respectively.
