

Onion Fundamentals:

- In Delhi, onion prices are hovering in the range of Rs 1700 to Rs 2600/ quintal and further prices are expected to be range bounded for next couple of weeks.
- According to trade sources in Maharashtra generally 70% of crop is left in Maharashtra during this time but due to lesser production this year only 30% of crop is left. This is the main reason for rise in prices.
- Traders from Lasalgaon and Pimpalgaon are expecting that prices may come down after Ramzaan festival as during this time demand is high.
- Fresh early Kharif crop of onion is expected to start from August end from AP, Karnataka and later on from Maharashtra and Gujarat which will provide cap to prices.
