

Potato Fundamentals:

- In **West Bengal**, approximately 16.5 lakh ton potato is remaining in the cold storages whereas total demand in the State is expected to be 11.5 lakh ton.
- According to sources, **West Bengal** government has not removed the ban on export completely but they have allowed the traders to take permission from State government if they are interested in exporting the crop to other States.
- NAFED has assured that it will supply potato to odhisa and crop will arrive in next 3-4 days as 20 trucks from Kanpur are already loaded for Odhisa. This will be a big relief for consumers in odhisa as prices are soaring high.
- In **Khandauli (U.P)**, modal prices are hovering in the range of Rs 1650/ quintal. Potato prices during first 3 days of November month were around Rs 1300/ quintal. This increase in price is due to lower stocks available in cold storages.

Daily Price Chart of MCX- Agra March Contract:

(Source: Agriwatch)

Candlestick chart pattern reveals bullish trend in the market, however prices may correct at higher levels. RSI is moving upward in overbought region indicates prices may go up further for short term. Prices closed above 9 and 18 days EMAs. Sudden rise in prices is due to higher prices in spot market. Market is expected to remain range bounded for next few days.
