Note: Production, use, trade and stock data are on a marketing year basis: November–October for canola, peas and lupins. Production may not equal the sum of apparent domestic use and exports in any one year because of reductions or increases in stocks. The export data refer to marketing year export periods, so are not comparable with financial year export figures published elsewhere. India moong area is projected to total 2.60 million hectares in the current season as per our survey estimates compared to 2.42 million hectares during the previous season. This is below the normal acreage area of 2.64 million hectares. Increase in acreage is mainly in the states of Maharashtra and Rajasthan. Good remuneration for the crop and rainfall has increased acreage under moong in the current season. Sowing is complete in the growing regions and arrival of new crop is expected to increase by next month.

*2012 -13 area figures are provisional

Market Outlook:
Prices are likely to notice weak tone in the coming days.

Technical Analysis (Spot Market Weekly Chart)
