

## Sugar & Gur Domestic & International Fundamentals

- Mixed sentiments recorded in key sugar spot markets on Thursday as markets could not find adequate cues to decide the prices either side.
- Government today hike the Fair Remunerative Price of Sugarcane by 23.5% to Rs. 210/Quintal for 2013-14. It is notable that last year FRP of sugarcane was Rs 170/ Quintal. This move could encourage farmers to plant more sugarcane in their respective fields for the coming year as sugarcane crop proved more competitive crop compared to Rice, wheat and cotton as estimated.
- Thai raw sugar premium increased this week and trading at 90 points over New York's March Sugar futures.
- Brazil Center South sugar production ends at 34.1 million tons in 2012-13.
- Sugar prices again follow bear run as no bullish news hit the domestic market at present. In addition to it, increasing sugar imports from Brazil and increasing sugar crushing figures Y-o-Y support the bearish sentiments.
- Recent, government relaxed its norms to convert unsold sugar into levy sugar in the given period of release from December to March.
- Gur prices traded steady today despite of weak arrivals.
- Good demand of UP gur has been witnessed from Haryana, Punjab and Rajasthan confirmed by lower pace of gur stored in the cold storages compared to last couple of weeks.
- Around 313000 bags of gur stored in Cold storages in Muzaffar nagar region which are 4000 bags higher compared to last year. Out of total gur stock, 129000 bags of chaku gur, 55000 bags of Rascut and 99000 bags of Papdi stored in Cold storages as reported.

### Outlook:

Despite of extension of releasing sugar quota in the open market, sugar prices again started declining owing to consistent sugar imports from Brazil which bound our sugar prices estimate bearish for the coming weeks.
