AGRIWATCH

Sugar & Gur Domestic & International Fundamentals

- Sugar prices are traded steady in key sugar spot markets on Tuesday owing to very little trade witnessed.
- Brazilian mills are going to start next season cane harvesting at least 20-30 days ahead of last year. It is notable that . higher ethanol prices urge millers to go for producing biofuel from cane.
- Thai raw sugar premium Hi-pol traded at 60 to 100 points over March ICE sugar contract. Meanwhile, Thai white sugar • premium stood at \$25 over May LIFFE Contract.
- Indian white sugar premium traded steady at \$35 over May London futures.
- Bangladesh is looking for 45 ICUMSA sugar as reported.
- Gur prices improved today in Muzaffar nagar spot market due to lower arrivals. Continuous rainfall in various regions of UP . yesterday night make it difficult for gur manufacturers to bring the goods to the market.
- Total around 373000 bags of gur (40kg each) stored in cold storages till 25th February 2013 which are 308000 bags (40kg • each) lower compared to last year same period. Out of total 373000 bags of gur, around 107000 bags of Chaku gur, 64000 bags of Rascut, 99000 bags of Papdi, stored in the cold storages as reported.

Outlook:

Government decision not to increase sugar import duty increases the selling activities in the sugar markets. We expect prices are likely to fall from present level in the coming days.
