

## Sugar & Gur Domestic & International Fundamentals

- Steady sentiments recorded in key sugar spot markets on Friday. Increasing arrivals has offset the impact by moderate domestic sugar demand.
- Thailand cane crushing reached 99.38 million tons till 22<sup>nd</sup> April that is 3.2% up compared to last year same period. Meanwhile, cane crushing for this season almost came to an end as millers are crushing very less cane presently.
- A rake business loaded with Sugar has been reported from Sangli towards Delhi at FOR Rs. 3190 per quintal. It is notable that Delhi traders are getting parity from Maharashtra instead of UP at current sugar prices at sourcing and destination centers.
- Millers which are presently selling sugar below cost of production definately try to make some profit in the coming months by playing with sugar stocks left with them (Millers got freedom to sell sugar in the open market without any monthly restrictions).
- Gur prices shows decline in prices despite of lower arrivals in Muzaffar nagar spot market compared to prior day.
- Lower stock position of gur stored in the cold storages support the gur prices overall. In addition to it, lower cane production in Maharashtra also lowered down the gur production which also gives some rally to the gur prices in the coming weeks.
- Total around 1057000 bags of gur (40kg each) stored in cold storages till 15th April 2013 lower from 1396000 bags of gur at last year same period (40kg each). Out of total 1057000 bags of gur, around 611000 bags of Chaku gur, 118000 bags of Rascut, and 194000 bags of Papdi, stored in the cold storages as reported.

### Outlook:

Sugar prices are ruling in a downward trend. Major influencing factors are sugar selling by millers in the open market, sugar imports, and overall weak international sentiments due to global sugar surplus. **Short term Price Outlook:** Prices of sugar might continue its downtrend for short term with increasing supply by millers. **Medium term Price Outlook:** With increasing heat waves in the country, summer demand of sugar would pick up in May. In addition to it, closing of cane crushing operations and partial decontrol of sugar by government would turn the price sentiments up in the coming months as expected.
