#### Sugar & Gur Domestic & International Fundamentals

- Sugar prices declined today in key sugar spot markets. Sluggish demand and led the prices decline.
- Sugar production in Thailand may climb by 10% to a record 11 million tonnes in 2013/14 (November to October) as yields increase, according to the Thai Sugar Millers Corp.
- Russia will increase its raw sugar imports by at least 85% in the 2013/14 marketing year starting on August 1, as its own beet sugar output is expected to fall. The country will import at least 850,000 tonnes of raw sugar in 2013/14 compared with about 460,000 tonnes this year.
- A fall in the value of INR and Ramdan demand have enhanced sugar exports at a time when the freeing up of state controls have led to a rise in supplies and a fall in prices. Mills have committed around 1.5 lakh tonne of sugar for export to neighboring countries. Thanks to a good demand from West Asian countries due to the ongoing month of Ramzan, Indian traders are offering sugar in the international market in the range of \$500 per tonne. Last month, around 69,000 tonne of sugar was exported by India.
- Steady sentiments recorded for gur prices in spot market on Saturday.

#### **Outlook:**

Sugar prices likely to move in a range with firm tone in the coming month. Expected sugar summer demand would drive the prices upwards. Any change in sugar policies by government like hike in sugar import duty would change the direction of the sugar prices in future.
