

## Sugar & Gur Domestic & International Fundamentals

- Sugar prices remained flat for last couple of days considering lackluster trade in the markets. However, prices of sugar likely to rise over expected sugar festival demand.
- International sugar prices continuously improving in ICE as well as LIFFE. On charts, prices should move up to 17.20 cents per lb in the coming week as expected.
- Brazil mills had increase cane allocation to make ethanol to 55% from earlier 54.6% considering higher demand.
- Guwahati market is getting sugar from Maharashtra markets at Rs 3280 per quintal S Grade as reported.
- Canaplan cuts its estimate of sugar production in Brazil's Center South region for 2013-14 to 33 million tons from 34.5 million tons forecasted earlier.
- Gur prices improved today in Muzaffar nagar spot market.
- Meanwhile, expected late crushing operations by millers in UP and Maharashtra also might urge farmers to divert their cane towards gur making. Weak lifting of gur by Rajasthan and Gujarat also curb any hike in prices of gur.

### Outlook:

We expect sugar prices would improve in the coming months considering increase in sugar export and upcoming sugar festive demand. Also, lower sugar production estimate for 2013-14 also support the prices in the long run.
