

Daily Sugar & Gur Fundamental Report

21th December, 2013

Sugar & Gur Domestic & International Fundamentals

- Prices remained unchanged in key sugar spot markets on Friday due to lackluster trade.
- In a major event, cabinet sanctioned 7000 crore interest free loan to sugar industry. It gives a major respite to sugar mills which are suffering from increasing sugarcane prices and sugar downward price trend.
- India has produced 24.24 lac tons of sugar till 15th December which is around 50% down compared to sugar produced last year same period, according to ISMA.
- India has exported 80000 tons of sugar in the second week of December which takes the total sugar exports to 6.6 lac tons in December 2013 till date.
- Thai raw sugar premium remained steady this week and trading at 65 to 70 points over ICE raw sugar futures contract. Usually, Thai raw sugar premium improved with decrease in ICE raw sugar prices. But due to start of cane crushing season in Thailand and India releasing its excess sugar in the Asian markets stop the traders to increase the premiums at present.
- India has exported 5 lac tons of sugar in the first week of December 2013. Recent figures increase the future prospects of sugar exports from India which would result in higher prices.
- India has exported 12 lac tons of sugar in 2012-13, according to Food Minister.
- Gur prices improved today in key Muzaffar nagar spot market due to good demand from domestic markets.
- Total around 210505 bags of 40 kg each of gur stored in warehouses presently which are lower by 70190 bags compared to last year same period gur stock position in warehouses.

Outlook: With delay in sugarcane crushing operations by mills, sugar output is likely to decline for the coming marketing year which might support the sugar prices in the medium term.
