AGRIWATCH

Domestic Fundamentals:

- Most of the edible oil featured steady to firm tone on need based buying.
- Rapeseed oil featured steady to weak tone in expectation of higher RM production As per Ministry of Agriculture, sown . area for Rabi mustard seed stood at 67.17 lakh hectares as on 31 Jan. 2013, up 2.78 percent compared to the corresponding period last year.
- Ready to use pal oil quoted steady to firm tone on better buying and seasonal demand. Howover, firmness in Indian rupee against US dollar led to cheaper edible oils import on the other hand curb oil meals export returns. INR spot closed at 53.19 levels up 0.6 percent on W-o-W basis.
- Edible oil basket is expected to feature range bound tone in the days ahead on slow soybean selling by farmers and lower than expected crushing. However, lower meal demand may limit upside.

International Market Fundamentals:

- Overnight March Sovbean Oil finished up 0.13 at 52.99 cents/pound. Canadian farmers are expected to sown spring's canola crop in 7.7 Mln Ha, down 10 percent from last year due to disappointing canola yields last year, disease problems due to lack of crop rotation, higher wheat prices, increased soybean planting and may switch to wheat on relatively attractive than canola. Moreover, canola production seen at 14.5-15 Mln T. last year canola output was 13.9 MIn T.
- Malaysian palm oil products exports for January fell 6.4 percent to 1,421,865 tons compared with 1,518,750 tons shipped during December - Societe Generale de Surveillance.

Outlook: Edible oil prices are expected to feature range bound movement in the near-term. However, seasonal demand may support prices in the near to medium-term.
