

Domestic Fundamentals:

- Most of the edible oils featured steady to weak tone tracking bearish cues from overseas market and limited buying at cash market.
- Ready to use palm oil quoted lower on bearish cues from international palm oil market. However, weakness in the
 Indian rupee against US dollar limits downside. As per sources, demand for palm oil was moderate and stockists
 covered need based position during the week. However, rising Rabi oilseed arrivals and falling seasonal usage with
 rising temperature might weigh on the edible oil complex in the coming weeks.
- There were no changes in import duty structure on the crude and refined palm oil in the union budget. However, market participants were expecting a raise in import duty on crude palm oil to 10% and refined palmolein to 20%.
- Mustard oil witnessed losses at Kota market on higher mustard seed arrivals and lackluster buying. RM seed oil (Kota basis) prices fell by 5.6 percent to Rs 700 per 10 Kg on weekly average basis. Sown area for Rabi mustard stood at 67.46 lakh hectares as on 28 Feb. 2013 up 2.38 % compared to corresponding period last year Ministry of Agriculture.
- Edible oil basket is expected to feature range bound to weak movement in the days ahead on sluggish domestic buying. However, slow soybean offloading by farmers may limit downside risk in the prices.

International Market Fundamentals:

- CPO at BMD ended lower on weak Chinese macroeconomic figures and market participants remain cautious ahead of palm oil conference in the next week.
- China will sell 100,000 metric tons of rapeseed oil from state reserves in an auction on March 8 to make room for a fresh round of stockpiling in June. The Chinese government has around 4 million tons in reserves as it stockpiled every year to encourage production.
- Exports of Malaysian palm oil products for Feb. fell 8.8 percent to 1,297,320 tons compared with 1,421,865 tons shipped during Jan. Societe Generale de Surveillance. India imported 158,250 tons of palm oil products from Malaysia, up 0.44 percent during the Feb as compared to the same period last month. Lower palm imports witnessed from China, US and Pakistan. However, EU's palm oil imports were up by 67.4 percent to 272,805 tons of palm oil products on M-o-M basis.
