

Domestic Fundamentals:

- Most of the edible oils featured steady tone on limited demand against adequate supplies.
- PEC Ltd has issue a tender to import 21,300 tons of RBD palmolein for shipments by April 15 at Chennai and Tuticorin ports. The last date for submission of bids is March 21,
- Refined sunflower oil quoted slightly higher on need based buying from wholesalers. Sown area for Rabi Sunflower stood at 5.33 lakh hectares as on 14 Mar. 2013 up 14.6 % compared to corresponding period last year. Higher planting witnessed in Karnataka - Ministry of Agriculture.
- Ready to use palm oil quoted lower on slack buying Sources revealed weak demand witnessed from vanaspati units and wholesalers. Meanwhile, excessive losses could be curbed as demand may shift to cheaper palm oil products and palm oil solidifies ended with an approaching summer season.
- Edible oil basket is expected to feature range bound to weak movement in the days ahead on sluggish domestic buying and higher oilseed arrivals. However, renewed demand could be witnessed at lower levels.

International Market Fundamentals:

- Mild recovery witnessed in Malaysian palm oil products exports wherein fortnightly March figures depict a rose of 4.6% m-o-m basis. Market participants expecting seasonally lower palm oil production phase and firm exports may help to ease palm oil inventories further. However, stocks levels of Palm oil in the South East Asian countries are still higher compared to the seasonal stock levels, which may restrict excessive gains.
- Malaysia will set its crude palm oil export tax for April at 4.5 percent, unchanged from March and South East Asian country sets reference price of 2,383.84 ringgit per tons for crude palm oil for April.

Outlook: Edible oil prices are expected to feature range bound to weak movement in the near-term. However, renewed demand could be witnessed at lower levels.
