

Domestic Fundamentals:

- Most of the edible oils featured steady to weak tone on subdued demand against adequate supply, Saturday.
- Refined soybean oil quoted slightly lower on lackluster buying interest. As per sources, good demand against thin soybean supplies support mild gains in refined soy oil prices. However, average demand from wholesalers and adequate edible oil stocks limit upside.
- Sunflower oil quoted steady at Chennai market on lackluster buying interest. New Rabi crop in the southern Indian market and limited buying in premium edible oils dampened bullish enthusiasm in the cash market. However, gains in the international sun oil market restrict excessive losses.
- Sown area for Rabi oilseed stood at 91.98 lakh hectares as on 28 March 2013 up 0.18 % compared to corresponding period last year Ministry of Agriculture.
- Edible oil basket is expected to feature range bound in the days ahead on sluggish domestic buying and higher rabi oilseed arrivals. However, renewed demand could be witnessed at lower levels.

International Market Fundamentals:

- US soybean stocks (as on March 1 2013) were reported at 999.28 million bushels, higher than trade expectations at 935 million, but down from 1.374 billion bushels in March 2012 USDA.
- Export tax for crude palm oil for April remains unchanged at 10.5 percent from the previous month. Moreover, Indonesian government also kept unchanged its export tax for RBD palm olein at 4 percent for April. While, Malaysia sets its crude palm oil export tax for April at 4.5 percent
- Malaysian palm oil products exports for March 1-25 fell 7 percent to 1,055,914 tonnes compared with 1,134,872 tonnes shipped during Feb. 1-25, cargo surveyor Societe Generale de Surveillance. India imported 81,142 tons, down 48.7 percent compared to 158,250 tons during the same period of last month.

Outlook: Edible oil prices are expected to feature range bound movement in the near-term.
