AGRIWATCH

Domestic Fundamentals:

- Most of the edible oils witnessed steady to firm tone on supportive domestic international oils and fats market in recent days.
- Lower oilseeds supplies in the domestic cash market in recent past affected the crushings leading to the fall in the edible oils and meals needed to meet the normal demand.
- The international oils and fats market remained closed for Saturday. However, overnight gains in CBOT soy complex remained supportive for the domestic market.
- Indian buyers imported 850,906 metric tons of edible oils in March, up 21 percent compared to the previous year. However, on m-o-m basis lags 10.9 percent. Total stock, both at ports and in pipelines to 2,100,000 tons comprises of 8.5 lakh tons at ports and 12.5 lakh tons in the pipeline which is higher than the monthly consumption – SEA of India.
- Refined soybean oil Indore featured losses inline with bearish international palm oil market and need based demand in the cash market.
- PEC has issued an international tender to import 6,300 tons of RBD palmolein from Indonesia/ or Malaysia and shipment to be required in between April 15-25.
- Edible oil basket is expected to feature range bound movement in the days ahead. However, renewed demand ahead of wedding season and ongoing festivities in April may support market sentiments.

International Market Fundamentals:

MPOB has reported that Malaysia's March palm oil stocks fell by 10.9 per cent to 2.17 million tons from 2.44 million tons in February 2013.

Outlook: Edible oil prices are expected to feature range bound movement for the short term.
