

Domestic Fundamentals:

- Most of the edible oils featured weak tone on bearish international scenario and cautious buying in cash markets Saturday.
- Refined soyoil, palm oil, refined cottonseed oil mostly fell tracking overnight losses in CBOT soybean and soyoil.
- However, Groundnut and coconut oils featured steady tone on steady demand.
- As per the latest report of Ministry of Agriculture, sown area for Kharif Soybean stood at 103.12 lakh hectares as on 11 July 2013. However, soybean sowing was 54.52 lakh hectares in the corresponding period of last year.
- As per News sources, India is considering raising the import tax on refined edible oils products by 2.5 percentage
 points within a month to support the local refiners struggling to generate profits. In last two months share of refined oil
 (RBD Palmolein) has jumped to over 40% from 16% in March'13.
- On import front, IBIS data revealed that India imported 1.56 lakh tons of crude sunflower oil majorly from Ukraine in the month of June.

International Market Fundamentals:

- Exports of Malaysian palm oil products for July 1-10 fell 15.9 percent to 352,375 tons from 419,035 tons during same time of last month cargo surveyor Intertek Testing Services.
- Outlook: Edible oils are likely to recover after a slide skid in near-term. Improved edible oil demand during Ramadan
 will be supportive for the market. However, forecast of normal monsoon and correction in the international palm oil
 market may limit gains.
