

Domestic Fundamentals:

- Edible oil basket witnessed a steady to firm tone in prices across the major markets on need based buying and firm international palm oil market.
- As per Reuters survey, India's vegetable oil imports likely fell nearly 20 percent in August from a month ago owing to
 weak Indian rupee made edible oil costlier. Moreover, Soyoil imports may fall 42.5 percent in August on Iow seasonal
 demand and a strong production outlook.
- Palm oil demand at major cash markets were normal, market participants remains reluctant to take new position due to fluctuation in the Indian rupee against US dollar and on hopes of bumper soybean production.
- Edible oil basket is expected to feature range bound to slightly weak tone in the days ahead due to weak Indian rupee and concerns over crop conditions. While, higher oilseed sowing in the current season may limit upside.

International Market Fundamentals:

- CPO at BMD ended higher on bargain hunting and positive exports. However, concerns of rising palm oil inventories limit excessive gains.
- As per data released by the Malaysian Palm Oil Board (MPOB), palm oil inventories rose 0.11 percent in August to 1.665 million tons, the consecutive rise in stockpiles noticed as production of the oil surged by 3.64 percent to 1.73 million tons in August. Exports rose 7.8 percent to 1.52 million tons in August from a month ago.

Outlook: Edible oil prices are expected to feature range bound for the short term.
