

Domestic Fundamentals:

- Edible oil basket witnessed a mixed tone in prices across the major cash markets. Soy and rapeseed oil quoted up and palm oil featured losses, Thursday.
- As per India's Farm Minister, kharif oilseeds output is seen at 23.93 million tons in the 2013/14 crop year owing to higher soybean output and has been estimated at 15.68 million tons, up 6.8 percent from a year earlier. While, Adani Wilmar pegged soybean output at 13.5-14 million tons.
- As per Dorab Mistry, palm oil imports for 2013/14 oil year seen at 8.3 million tons, against 8.35 million tons in 2012/13 as local buyers may turn to soy oil and sunflower oil to supply domestic refiners.
- Edible oil basket is expected to feature range bound to slightly weak tone in the days ahead due to harvest pressure and strong Indian rupee. However, concerns over crop conditions and normal buying may limit excessive losses.
- Edible oils stocks as on 1st September, 2013 at various ports estimated at 505,000 tons comprising CPO 235,000 tons, RBD Palmolein 110,000 tons, Degummed Soybean Oil 95,000 tons, Crude Sunflower Oil 65,000 tons and about 1,180,000 tons in pipelines. SEA of India.

International Market Fundamentals:

• BMD Market ended lower on expectation of climbing palm oil inventories in South East Asian Counties. However, supportive Malaysian palm oil exports figures for September 1-25 limit excessive losses. Malaysian Sep 1-25 palm oil exports up 6.5% on m-o-m basis - Intertek.

Outlook: Edible oil prices are expected to feature range bound movement for the short term.
