

Domestic Fundamentals:

- Edible oil basket featured steady to slightly firm tone on renewed buying, while, strong Indian rupee and weak international palm oil market limit upside, Thursday.
- Rapeseed oil featured slightly firm tone at its benchmark market Kota and quoted Rs 720 per 10 Kg from previous trade session owing to normal demand from stockists. As per sources, higher mustard seed planting and average demand may support the bears for short term. However, seasonal demand for oils may caps excessive downside.
- As per Ministry of Agriculture, sown area for Rabi mustard seed stood at 60.74 lakh hectares as on 28 Nov. 2013, up 3.58 lakh hectares compared to the corresponding period last year.
- Coconut oil featured lower on moderate supplies and limited buying at higher quotes. Coconut oil quoted Rs 1080 per 10 Kg, down Rs 10 Kg from previous trade.
- Edible oil basket is expected to feature steady tone in the near-term. While, recovery in the Indian rupee and sideways trend in the international oil & fats market may cap the gains.

International Market Fundamentals:

- BMD witnessed losses on weak export demand from top buyers. While, in expectation of good biofuel demand may support the palm oil prices in the coming days. Malaysian palm oil exports for Nov. is estimated at 1.47 Mln tons, down 4.9% m-o-m basis -SGS.
- As per Informa Economics, global rapeseed production for 2014-15 is projected at 68.5 million tons, down 0.5 million tons from last year. Output in Canada s forecast at 16.9 Mln t, EU at 21.1 Mln t, China at 14.1 Mln t and India at 7.2 Mln t. As per Safras e Mercado, Brazilian farmers have planted 88% of the estimated soybean acreage by November 29, 2013, up 10% from previous week and 86% reported at the corresponding period of the last year.

Outlook: Edible oil basket is expected to feature steady tone in the near-term. While, higher Kharif oilseed arrivals may cap the excessive gains.
