

Domestic Fundamentals:

- Edible oil basket featured steady to slightly weak tone on limited buying against adequate supplies and weak international oil & fats market. Thursday.
- Refined sunflower oil featured lower at Chennai market due to limited buying against adequate supplies and higher sunflower oil stocks at ports. Sunflower oil quoted Rs 735 per 10Kg, down Rs 5 per 10 Kg from previous trade.
- Edible oils stock as on 1 Dec. 2013 at various ports of India is estimated at 5.9 lakh tons which consist of (CPO 3.2 lakh tons, RBD Palmolein 1.30 tons, soybean degummed Oil 35,000 tons, Crude Sunflower Oil one tons, Rapeseed Oil 8,000 tons) and 14.7 lakh tons in pipelines (SEA of India).
- RBD palmolein featured steady to slightly weak tone tracking strong Indian rupee against US dollar and weak international palm oil market. MMTC Ltd. has issued a tender to import 6,500 tons of RBD palmolein for immediate shipment. Of the total, 2,500 tons is for delivery at Krishnapatnam port and the 4000 tons at Kakinada port. The last date to submit bids is Dec. 17. The edible oil must be of Indonesian or Malaysian origin.
- Edible oil basket is expected to feature steady tone in the near-term. While, recovery in the Indian rupee and sideways trend in the international oil & fats market may cap the gains.

International Market Fundamentals:

- CPO at BMD witnessed slight losses on higher South American soybean production estimate and weak palm oil export figures. However, weather concern over key palm producing region of Malaysia and Indonesia limit excessive downside.
- As per data released by the Malaysian Palm Oil Board (MPOB), palm oil inventories rose 7.2 percent in November to 1.98 million tons.

Outlook: Edible oil basket is expected to feature steady tone in the near-term. While, higher Kharif oilseed arrivals may cap the excessive gains.
