

Wheat Domestic Fundamentals:

- Thailand feed millers have bought 40,000 MT Indian wheat during the week as prices are declining. Purchases were made around USD 315/T CNF.
- In January 2013, 400,674 MT of wheat was exported from government stock through PSU's and it is expected that in February 2013, this could reach 500,000 MT.
- Government has set target of procuring around 44 million tonnes wheat this year. Punjab is likely to be the largest contributor towards wheat central pool stock, Madhya Pradesh may takeover Haryana as second largest contributor with around 11.5 million tonnes wheat as sown area has increased by 3 lakh hectares in M.P.
- Government is expected to procure 440.06 Lakh Tonnes of wheat in 2013-14 Rabi Marketing season as compared to previous season's 381.48 Lakh Tonnes. This year crop is expected to be around 92.3 million tonnes, which is lower than last year crop of 94.88 million tonnes.
- Wheat sowing has completed now and total area coverage is slightly lagging behind last year. Wheat has been sowed at 298.38 lakh hectares against 298.61 lakh hectares last year at the same time, almost twenty three thousand hectares lower than last year. Major area increase has been witnessed in M.P. and Uttar Pradesh. Lower area coverage in Gujarat and Maharashtra will remain the cause of concern.
- Wheat inflation has declined from December 2012(23.23%) to 21.39% in January 13. Although WPI has reduced marginally to 205.4 in January 2013 from 205.3 in December 2012 as government had increased the supply in January.

International Market Update:

- According to IGC, World wheat production is forecasted to increase by around 4 percent in the 2013-14 crop year, with most of the increase is expected to be absorbed by rising demand leaving little or no room of stock building. World production of wheat may be 656 million tons, little changed from the previous forecast. Ending stocks are predicted to be 176 million tons, 2 million tons more than the January outlook.
- CBOT has fallen as recent snow in key wheat growing region of US like Kansas State has increased the possibility of better crop and Wheat March 13 Contract Closed on \$264.99/T, which is lowest since July last year. International future and Spot market may continue under pressure ahead as buyers too are deferring purchases to re-enter at lower levels.
- Iran's state grains agency GTC has purchased 180,000 tonnes of Australian wheat for April 2013 shipment in past couple of weeks at USD 405/T, CNF. According to traders purchases were made at \$10 premium due to sanctions imposed by west.

Domestic market Outlook: We expect wheat Cash and future market to trade steady to weak as
