

Wheat Domestic Fundamentals:

- Wheat cash markets traded slightly higher on improved demand from miller's side. Market participants expect market to move up further on seasonal factors. However, any bull run is unlikely at this point of time. Ample stock in central pool and govt.'s intention to augment supply in the lean season will continue to act as a cap.
- Exporters are unwilling to buy at current level due to disparity and volatile INR. Russia, US are supplying wheat at very competitive prices. In a latest development Madhya Pradesh govt. has exempted state-owned cooperative agencies from purchase tax on wheat purchase.
- According to traders local millers are buying wheat at Rs 1450-1475/Q in Khanna region. Wheat is reaching Pune at Rs 1800-1850/Q, delivered basis from Kanpur region. Traders in Rajkot are sourcing wheat from Kota region at Rs 1830-1870/Q, delivered basis. Supply from UP to south Indian market continues at Rs1780 to Rs 1790 on delivered basis.
- As on 1st September, wheat stock in central pool was 38.36 million tonnes which is lower than previous year 46.16 million tonne on the same date. Punjab and Haryana hold the maximum wheat stock at 14.48 million tonnes and 9.34 million tonnes respectively.
- As per IBIS data, India exported 1.31 lakh tonnes of wheat in month of August, which is lower than 4.79 lakh tonnes exported in the same month last year. Around 42000 MT was exported to Sudan and 22, 685 MT was exported to UAE.
- Indian firm LMJ lost the bid for 50,000 MT to Ismail food products for Bangladesh government wheat tenders. LMJ bid was USD 286/MT, CIF which lost to Ismail food product's USD 282.66/MT, CIF. Ukraine is the expected origin of wheat.
- Indian wheat can become competitive in South East Asian countries due to weak rupee. Traders feel that if government reduces OMSS prices than they can compete with Black sea region. South East Asian countries have shifted to Black sea region from India due to cheaper wheat availability.
- Wheat inflation has considerably decreased in August to 7.60% year on year basis from 13.42% in July 2013. Though WPI has decreased marginally 205.3 in August from 206.2 in July 2013.

International Market Update:

- Statistics Canada said that total wheat production in Canada is expected to reach 30.6 million tonnes this year up 12.9 per cent from 2012. Statistics Canada will release final production estimates for 2013 on Dec. 4. The latest America projection for Canadian wheat is even higher. The U.S. Department of Agriculture, pegged Canadian wheat production at 31.5 million tonnes up two million tonnes from its August estimate.
- GASC has bought 235,000 MT of Russian, Ukrainian and Romanian origin wheat for 11-20 November delivery at USD 251.68-254.88/MT, FOB. Flour Mill in Oman has bought 30,000 MT of Russian origin 12.5% protein wheat for USD 285/MT, CNF for November delivery.
- ABARES has reduced wheat production forecast for 2013-14 to 24.46 million tonnes from 25.39 million tonnes due to dry weather in eastern wheat belt and mixed weather in Western Australia too had an impact on yield.
