

Pulses Domestic Fundamentals:

- Pulses markets noticed range-bound movements.
- Small millers are buying for upcoming navratri demand.
- Madhya Pradesh Chief Minister wrote letter to the Prime Minister and a 21-member delegation of BJP MPs from Madhya Pradesh led by Leader of Opposition in Lok Sabha Sushma Swaraj handed a memorandum to the President relating the procurement of chana(gram) at Minimum Support Price (MSP) and to provide credit limit to Nafed for starting this purchase. The memorandum also asks government to make proper arrangements for price support operations for a period of 60 days be made immediately so that farmers can sell their produce at MSP.
- Commencement of rabi crop reported in various domestic markets. However, below-average quality grains are reported and traders are expecting good quality grains after Navratri festivals. Meanwhile, dal millers are buying pulses to fulfill their day-to-day operations.
- Currently, Market participants are waiting for the final decision on gram procurement by government agencies.
- At JNPT port, 104 containers of tur, 39 containers of green moong, 88 containers of urad and 60 containers of masoor arrived on March 21, 2014.
- According to the second advance estimates of domestic production, the Record production has been achieved in the case of tur (3.34 million tonne), all pulses put together (19.77 million tonne). Following table illustrates the pulses wise production
- According to Ministry of Agriculture, acreage under rabi pulses till date is surged by 6.05 percent to 161.90 lakh hectares compared to 152.65 lakh hectares during the same period previous year.

International Fundamental:

- EU imports pea majorly from Russia and Ukraine during 2012-13-Eurostat.
- According to the Agriculture and Agri-Food Canada (AAFC), pulses and special crops production in Canada is forecast to fall by 9% to 5.9 million tonne(MMT) in 2014-15 against the 6.5 MMT expected during 2013-14, but up from 5.7 MMT produced in 2012-13. Meanwhile, expected seeded and harvested area in 2014-15 is likely to rise, but lower average yield will result in to the downfall of production.

Outlook: - Fresh rabi arrival weigh on the price, however yield loss is uncertain which hinders rally in prices.
