

Pulses Domestic Fundamentals:

- Pulses markets noticed range-bound movements.
- The Election Commission of India has approved fixed urea price hike by Rs 350 per tonne . The move will now raise the government urea subsidy bill by Rs 900 crore. The Director General of Fertilizer Association of India says the price hike will provide some relief to the urea manufacturers. The fixed cost of urea has remained unchanged since 2002-03. For a urea plant, the fixed cost mainly comprises establishment cost, annual maintenance cost, working capital, salaries, and interest. The industry demanded a hike of Rs700 per tonne and looking forward for further reforms in sector. The decision came ahead of the upcoming kharif-sowing season.
- A United States Trade Representative recently revealed that Indian FSSR (Food Safety and Standards Act, Rules and Regulations) pose barriers to American trade and the US will keep pressing India to remove obstacles to smoothen business relation. He states that Indian policies on wholesale foods labeling act as trade barriers in food trade. The Indian Legal Metrology Rules create mandatory package sizes in metric units excluding many US food products from the market since they are packaged in traditional English units (fluid ounces, pounds, and pints) which would effect the USA canned and bottled drinks, packaged biscuits and bottled vegetable oils. In Pea and Pulses trade, shipments of all pulses to India be fumigated at the point of origin, allowing MB fumigation on arrival, if necessary. The United States asked India to permit the exportation of US pea and pulse consignments to India without fumigation at the port of origin provided they are inspected and, if necessary, fumigated at the port of arrival.
- Thin trading activities reports in various cash markets on year ending activities.
- Price get support from recent rainfall further delays the harvesting of rabi crops.
- Small millers are buying for upcoming navratri demand.
- According to the second advance estimates of domestic production, the Record production has been achieved in the case of tur (3.34 million tonne), all pulses put together (19.77 million tonne). Following table illustrates the pulses wise production
- According to Ministry of Agriculture, acreage under rabi pulses till date is surged by 6.05 percent to 161.90 lakh hectares compared to 152.65 lakh hectares during the same period previous year.

International Fundamental:

- According to the USDA's latest report regarding seeding intentions for upcoming 2014 season, farmers are willing to plant 7% more pea than last year. The total pea area estimated at 921,000 acres.
- According to the USDA's latest report regarding seeding intentions for upcoming 2014 season, farmers are willing to plant 58% more australian winter peas a than last year. The total area estimated at 28,500 acres.
- According to the USDA's latest report regarding seeding intentions for upcoming 2014 season, farmers are willing to plant 1% more chickpea than last year. The total chickpea area estimated at 217,800 acres, including 69,400 acres under small chana area and 148,400 acres area is likely to plant under the large chickpea variety.
- According to the USDA's latest report regarding seeding intentions for upcoming 2014 season, farmers are willing to plant 12% lesser lentil as compared with last year. The total area estimated at 320,000 acres.

Outlook: - Fresh rabi arrivals weigh on the price, however yield loss is uncertain which hinders rally in prices.
