- **Farmers Association Ask For 30% Import Duty on Tur**-The Karnataka Pradesh Red Gram Growers Association has asked in a letter to PMO for a sustainable policy for pulses to protect farmers' interest. They suggested that the Government impose a duty of 30% in the forthcoming Budget to curb cheaper imports of pulses. They also said that government should start supplying pulses through the public distribution system across the country, while exploring options to exports to maintain stability in prices. Karnataka farmers are demanding Rs. 6,000 a quintal for tur to cover the rising production costs. Tur prices are currently hovering between Rs. 4,800 and Rs. 5,400 a quintal, higher than the minimum support price of Rs. 4,350 announced by the Government for the 2014-15 marketing season.
- **Chennai Would Procure Pulses**-Collector M. Ravikumar said that government will procure pulses , including black gram and green gram with the help of the Tamil Nadu Cooperative Marketing Federation at fair price from farmers to avoid middlemen. The procured pulses would be marketed through farm fresh vegetable outlet and also dispatched to markets in Chennai. (Source-Business Line)

- Tamil Nadu Civil Supplies Corporation (TNCSC) release purchase tender for 28000 tonnes of urad dall and 64000 tonne of yellow Canadian lentil. The bids remain open till Jan.20,2015.

Pulses International Fundamental:

- French Minister of Agriculture released a plan to increase the production of protein crops includes (field peas, fava beans, lupin, alfalfa, and soybeans) in France between 2014 and 2020. They are needed to meet the nutritional requirements for livestock and poultry feeds. The France is the leading combined livestock (beef, pork, and dairy) and poultry producer in the European Union (EU) but has a structural shortage in production of

protein crops, which requires it to import 40% of its domestic consumption needs. The French production of protein crops has declined in the past twenty years and, in 2013, accounted for less than two percent of total field crop area. The Farmers will be granted between 100 and 200 euros per hectare per year of protein crops between 2014 and 2020. The French production of protein crops (in tonne):

	1992	2013	% Change
Protein Crops	3322129	741382	-77.68
Field Pea	3258876	488270	-85.02
Fava Bean	50524	245546	386.00
Soybean	74475	110279	48.08

Outlook: - Pluses prices are likely to remain range-bound with weak tone in chana.
