**According to IBIS (provisional data), import of pulses in the last week (20-July-26 July)** was around 96 Thousand tonnes at major ports in India, around 28% lower than previous week's (July 13-July 19), import of 134 thousand tonnes. Rajasthan is the country's second producing state and this decline in production will not make the prices to decline steeply in near term.

**The Wholesale price index for Pulses for the month of June, 2015** rose to 308.9 from 284 in previous month. The Pulses annual rate of inflation based on monthly WPI, stood at 8.7% for June 2015 as compared with 7.53% in the previous month.

**Government is expected to procure 5000 metric tonnes of Tur from Malawi** in order to regulate the domestic prices. Tur prices have been increased by around Rs 30 per kg as compared to the prices of last year across Delhi, Kolkata and Mumbai. According to a official, government will import Tur (Arhar) from Malawi, which will help prices to cool down and the procured pulses will be provided to states from where it will be made available to people at affordable price.

**Pulses International Fundamental:**

- According to the local traders, no major damage occurred in Canadian Pulses** by frost and even the warm weather that followed has been ideal for crop development. They are estimating 3.75 million acres of the lentil crop, which is well above Statistics Canada's 3.35 million acre estimate and 3.9 million acres of peas, comprising three million acres of yellow and 870,000 acres of green peas. That is higher in line with Statistics Canada's 3.83 million acre estimate.
- Australian Chickpea is currently being planted and should be finished in the end of June.** Weather condition is favorable and yield may increase this year as compare to last year. Harvest is set to begin after September. Demand and prices of Australian chickpeas increased due to crop failure in India. Australia exports around 95% of its chickpea crop where India, Bangladesh and UAE are its major export destination.
- China for the second year in a row was net importer of Pulses.** According to the latest report compiled by STAT it imported 2.50 MMT of pulses in 2014 against 5.67 MMT in 2013. In 2014 it imported 8.17 MMT of pulses against export of 5.67 MMT. China was a net exporter of pulses until the 2013 calendar year. In 2012, China exported 3.67 MMT more pulses than it imported.
- USDA's Commodity Credit Corporation released purchase tender for 1000 metric tonne (MT) of yellow split pea for May -June shipment.**
- Field pea exports from France during the month of February** totaled 10,927 metric tons (MT) which is down by 19% from the 13,700 MT shipped in the month of January, and down 11% from the 12,470 MT shipped the same month last year. Shipments so far this season are down 36% at 83,555 MT. Most peas were shipped to European destinations, with Belgium the most important, followed by Switzerland and Italy. No field pea shipments were reported to Egypt or the Indian subcontinent.
