**According to IBIS (provisional data), import of pulses in the last week (20-July-26 July)** was around 96 Thousand tonnes at major ports in India, around 28% lower than previous week's (July 13-July 19), import of 134 thousand tonnes. **The Wholesale price index for Pulses for the month of June, 2015** rose to 308.9 from 284 in previous month. The Pulses annual rate of inflation based on monthly WPI, stood at 8.7% for June 2015 as compared with 7.53% in the previous month.

**Government is expected to procure 5000 metric tonnes of Tur from Malawi** in order to regulate the domestic prices. Tur prices have been increased by around Rs 30 per kg as compared to the prices of last year across Delhi, Kolkata and Mumbai. According to a official, government will import Tur (Arhar) from Malawi, which will help prices to cool down and the procured pulses will be provided to states from where it will be made available to people at affordable price.

- **According to the local traders, no major damage occurred in Canadian Pulses** by frost and even the warm weather that followed has been ideal for crop development. They are estimating 3.75 million acres of the lentil crop, which is well above Statistics Canada's 3.35 million acre estimate and 3.9 million acres of peas, comprising three million acres of yellow and 870,000 acres of green peas. That is higher in line with Statistics Canada's 3.83 million acre estimate.
