

Pulses Domestic Fundamentals:

- Area under Kharif pulses throughout the country stood 110.08 lakh hectares as on 11 September this year, around 11% higher when compared to the area sown during corresponding period last year which was 99.14 lakh hectares, according to Ministry of Agriculture.
- State Trading Corporation of India is inviting pulses millers and traders for enrollment with them to import pulses on their behalf. After fulfilling the pre-qualification criteria, millers /traders can enroll with STC and can ask them to import (minimum 50 metric tonnes) of any pulses giving their specification. For further details go to <http://www.tenders.gov.in/details.asp?tempid=1&tid=del767550&work=1&cno=0>
- As per the latest NCDEX circulation, the following changes have been made in the Chana Contract Open Interest of Members and Client:

The revised numerical open position limits area as follow:

Commodity	Symbol	Unit	*Member		**Client		Applicable From
			Overall	Near Month	Overall	Near Month	
Chana	CHARJDDDEL	2MT	150000	75000	15000	7500	Sept 21,2015
	CHANA2MT						

Note 1: *A member's open interest limit at overall (all contracts) level will be either the absolute number indicated above or 20% of the total market wide open position in the commodity, whichever is higher. In case of Near month limit, a member's open interest limits will be either the absolute number indicated above or 20% of the total Near month market wide open position in the commodity, whichever is higher.

Note 2: **A client's open interest limit at overall (all contracts) level will be either the absolute number indicated above or 5% of the total market wide open position in the commodity, whichever is higher. In case of Near month limit, a client's open interest limits will be either the absolute number indicated above or 5% of the total Near month market wide open position in the commodity, whichever is higher.

- According to IBIS (provisional data), import of pulses in the last week (31 Aug-06 Sept) was around 58 Thousand tonnes at major ports in India, around 44% lower than previous week's (24 Aug-30 Aug), import of 103 Thousand tonnes. Yellow pea, Urad and Green Pea were imported lower this week whereas; Chana, Green Pea, Kidney Bean, Tur and Moong were imported higher as compared to last week.
- Concern over the rising prices of pulses, government of Chhattisgarh has imposed stock limit to retailers and wholesalers. They can have maximum of 100 tonnes of pulses at a time. This decision will help the prices of pulses to stay low as supply will increase in the market and market players will not able to hold large amount of stock.
