

Pulses Domestic Fundamentals:

- According to latest report released by Ministry of Agriculture, Chana area till date (as on 28.01.2016) was registered at 85.48 Lakh Ha which is around 0.3% lower than in the corresponding period of last year which was 85.74 Lakh Ha.
- According to latest report released by Ministry of Agriculture, Peas area till date (as on 28.01.2016) was registered at 9.79 Lakh Ha which is around 5.6% lower than in the corresponding period last year. Last year it was 10.37 Lakh ha.
- According to latest report released by Ministry of Agriculture, Rabi Urad area till date (as on 28.01.2016) was registered at 8.16 Lakh Ha which is around 1% higher than in the corresponding period last year. Last year it was 8.08 Lakh ha.
- According to latest report released by Ministry of Agriculture, Lentil area till date (as on 28.01.2016) was registered at 13.45 Lakh Ha which is around 10.4% lower than the in the corresponding period last year. Last year it was 15.01 Lakh ha.
- According to the Ministry of Agriculture, area under Rabi pulses throughout the country stood 139.08 Lakh hectares as on 28th January this year, around 3% lower when compared to the area sown during corresponding period last year which was 143.01 Lakh hectares.
- According to IBIS (provisional data), import of pulses in the week (18 Jan-24 Jan) was around 116 Thousand tonnes at major ports in India, around 30% lower than previous week's (11 Jan-17 Jan) import of 166 Thousand tonnes. Chana, Yellow Pea and Urad were imported lower this week whereas Green Pea, Kidney Bean, Masoor, Cow Pea, Pigeon Pea and Moong were imported higher as compared to last week.
- The Wholesale price index for Pulses for the month of December, 2015 falls to 378.2 from 380.4 in previous month. The Pulses annual rate of inflation based on monthly WPI, stood at -0.58% for December 2015 as compared to 4.39% in the previous month.
- Arrival of Tur in Vidharba region of Madhya Pradesh is good and it may continue till February. As there is no demand in the market, prices may not shoot up in near future. We can expect some firmness from March onwards when arrival pressure eases.
- According to the local trader of Kanpur region of Uttar Pradesh, there is no demand of Tur that will keep pressure on the prices in near future. At present Tur price is being traded at Rs 7800-7850 per quintal and arrival has been reported 10-20 bags per day.
- Masoor crop in Patna region of Bihar is in very good condition and farmers are expecting greater yield than last year. According to the local traders, Masoor sowing area is higher by around 20% this year as compare to last year. New crop is expected to hit the market in mid March.
- According to the local trader of Ganj Basoda region of Madhya Pradesh, chana crop is in good condition and if the weather becomes cool there would be no loss in yield otherwise there can be 10-15 loss in yield. Recent cold wave is considered beneficial to the standing crop. However, temperature in February would be crucial for better yield realization.
- As pulses supply is in deficit side, the government is importing the same from the other nation and around 15,000 tons of pulses have been procured so far during the current season, said Food Minister Ram Vilas Paswan.

- **USDA's Commodity Credit Corporation released purchase tender** for 14,360 metric tonne (MT) of pulses for January-February shipment as food aid. Pulses have to be in packed in 50 kg bags.
- **Demand for Canadian lentil has been on the rise in recent weeks** and its reflections are being seen on bidding prices. Cash bid for Canadian lentil has been moving northward and has reached at Canadian \$ 1233 per tonne in the last week of November. The main reasons for rising prices are mainly attributed to, improved demand, weak local currency and hope for uptrend to continue.
- **According to the trade sources, Burmese Tur crop** is in good condition and they are estimating around 3-3.5 Lakh MT productions this year. Buyers are asking \$1275(CNF) for January-February contract.
- **According to the local trader in Yangon, Urad stocks** at present may be around 3-4 thousand tones. At present contracts are at \$1825-1835 (FOB) for Fair Average Quality (FAQ).
- **According to the latest Winnipeg report, Canada Lentil Production for 2015-16** is expected to increase by around 9 percent to 2.162 MMT. Canada had produced 1.987 MMT last year. Due to higher production, exports are forecasted to reach 2.2 MMT in 2015-16 from 2.18 MMT last year. Grower's bids are forecasted to be in the price range of \$780-\$810 for all lentils in 2015-16 due to better prospects of export demand. Lentil prices were ruling \$585 (average) per tonne in the last season.
- **According to the latest Winnipeg report, Canada Peas Production for 2015-16 is expected to decrease** by around 17 percent to 3.15 MMT. Canada had produced 3.81 MMT last year. Due to lower production, exports are forecasted to reach 2.9 MMT this year from 3.09 last year and ending stock are forecasted to reach from 4.29 MMT last year to 1 MMT this year. Lower production and resultantly lower carryout would push local farmers bid maximum to \$325 per tonne.
- **Canada Chickpea Production for 2015-16 is expected to decrease by around 20 percent** to 1.05 MMT. Canada had produced 1.31 MMT last year. Despite lower production, exports are forecasted to reach 85,000 MT this year from 80,000 last year due to higher demand. However, season ending stock is expected to decrease from 0.125 MMT to 0.09 MMT .Farmers bids are likely to increase from \$515 to \$600-625 per tonne.
- **According to the latest ABARES report, Australian Chickpea production forecast 2015-16** is 990 kilo tonnes which are around 78% greater than 2014-15 estimate which was 555 kilo tonnes. Australian chickpea harvesting starts from mid September and crops start hitting India market from October onwards.
