

BLACK PEPPER

Fundamentals:

Today's Update:

- Continued steady sentiment was witnessed in Black pepper spot market on Monday.
- Brazil's pepper exports increased by 34% in September, low pepper prices is the main reason for Brazil's pepper exports increase again in recent months, of which many orders come from Vietnam - the world's largest pepper exporter.
- According to the data of the Brazilian State Center for Foreign Trade Statistics, in September pepper exports of Brazil, the world's second largest pepper exporter after Vietnam, increased by 34% over the previous month to 8,063 ton.
- However, in the first 9 months of the year, Brazil's pepper exports still fell slightly by 3.4% compared to the same period last year, reaching 59,739 tons. In which, Vietnam imported 12,997 tons of pepper from Brazil in the first 9 months of the year up 2.7 times in volume over the same period last year. This is also the largest volume of pepper that Vietnam has ever imported from Brazil so far. Thereby making Vietnam become the largest pepper importer from Brazil, accounting for 22% of the country's pepper export market share compared to 8% of the same period last year.
- In September alone, Vietnam imported 2,246 tons of Brazilian pepper, up 52.7% over the previous month. In addition to Vietnam, Brazil also boosted pepper exports to a number of other markets in September such as: UAE up 35.7%, Morocco up 72.7%, especially Germany increased more than 7 times.
- Brazil's black pepper is attracting importers thanks to its competitive pricing and ample supply as the country is in the midst of its biggest harvest of the year.
- Brazil's pepper price is quite competitive, but the biggest obstacle of this pepper industry is still the presence of Salmonella bacteria on black pepper, making it difficult for Brazil to expand its market share in high-demand markets in terms of quality like EU or US. Meanwhile, Vietnam is the country with the most modern pepper processing technology in the world. Therefore, in addition to exporting, Vietnam is also one of the leading importers and processors of pepper.

Previous Update:

- As per current situations, AgriWatch expected India's pepper productions for 2021-22 likely to go down by 8 to 10% compared to last year. Last year (2020-21) India's Pepper production was 62,000 MT.
