

BLACK PEPPER

Fundamentals:

Today's Update:

- Continued steady to firm sentiment was witnessed in Black pepper spot market on Saturday.
- Continuous imports from other producing countries put pressure on Indian pepper prices.
- As per trade sources, higher old stocks reported in Kerala warehouses and owners are releasing their stocks at discounted prices added the bearish sentiment. It is reported that around 7,000 to 8,000 tons of FSSAI licensed pepper are being stored in the warehouse and the owner is in the process of releasing it in parts.

Previous Update:

- As per current situations, AgriWatch expected India's pepper productions for 2021-22 likely to go down by 8 to 10% compared to last year. Last year (2020-21) India's Pepper production was 62,000 MT.
