

BLACK PEPPER

Fundamentals:
Today's Update:

- Continued steady to weak sentiment was witnessed in Black pepper spot market on Monday.
- Vietnam Pepper price today (February 6) increased by 500 VND/kg in some localities. Currently, the domestic market is recording a price range of 56,000 - 59,500 VND/kg. Records show that the local pepper prices are in the range of 56,000 - 59,500 VND/kg. In which, the two provinces of Dak Lak and Dak Nong increased by 500 VND/kg to 57,500 VND/kg. Similarly, purchasing prices in Binh Phuoc and Ba Ria - Vung Tau also increased by 500 VND/kg, reaching 58,500 VND/kg and 59,500 VND/kg respectively. Particularly in Gia Lai and Dong Nai, pepper prices today did not change, moving sideways at 56,000 VND/kg and 57,000 VND/kg respectively.
- According to data from Cambodia's Ministry of Agriculture, the country's pepper exports in 11 months of 2022 reached 8,303 tons, down more than 70% over the same period. Currently, Cambodia is exporting pepper to 20 countries and territories with the main products being ordinary pepper and Kampot pepper, a geographical indication product.
- According to Govt. official, pepper exports fell because the global economy has not yet recovered from the impact of the COVID-19 pandemic. The lack of tourists has led to a decrease in orders for consumer goods such as pepper. Cambodia's annual pepper production is about 20,000 tons with an area of nearly 7,000 hectares, but this output has decreased by about 10-20%.
- Pepper is grown mainly for export because domestic consumption only accounts for 5-7% of production each year. Sales have decreased significantly from the beginning of 2022 until now. As of November, Kampot pepper exports reached just over 80 tons, while the same period was over 114 tons.

Previous Update:

- Current year lower production in India supported the domestic prices. As per trade sources production down by around 10% compared to last year.
- The main harvest season of Vietnam lasts until the end of April. The Vietnam Pepper Association (VPA) predicts that in 2023 production will increase by about 5% compared to 2022 to 180,000-185,000 tons.
- In 2022, Vietnam pepper export reported 228,000 tons, a decrease of 12% in volume compared to the same period in 2021.
- As per current situation, AgriWatch expects India's pepper production for 2022-23 likely to be around 52,000 to 53,000 MT. Last year production was 57,000 to 58,000 MT.
