

BLACK PEPPER

Fundamentals:

Today's Update:

- Steady to weak sentiment was witnessed in Black pepper spot markets on Tuesday.
- Due to strong Black Pepper supply from all the producing centres in the global market, its Indian prices in the past one year have remained stable in the range of INR 50,500-51,300 per quintal due to the normal export demand, driven by the better Indian quality among all.
- AgriWatch anticipates that prices will continue to remain stable in the ongoing week in the expectation of comparatively lower arrivals in the market. It is expected that planters and stockists will refrain from releasing their stocks in large quantities to maintain prices at comfortable levels.

Previous Update:

- As per current situation, AgriWatch expects India's pepper production for 2022-23 likely to be around 52,000 to 53,000 MT. Last year production was 57,000 to 58,000 MT.
